CPR123 is an easy and effective way to learn and refresh your CPR (cardiopulmonary resuscitation) skills. Approximately 75% of cardiac arrests occur in people's homes but only 22% of cardiac arrest patients receive CPR prior to the arrival of emergency services.

The **CPR123** personal learning program enables you to learn and practice the lifesaving skill of CPR. Practice CPR with your own inflatable manikin, booklet and instructional DVD in the comfort and convenience of your own home. Then share your new knowledge with friends and family for maximum benefit.
